3. YOUR BEFORE-YOU-BUY CHECK

- Does this item work with at least three pieces I already own?
- Can I make at least two outfits with it?
- Does its color fit with the shades I wear most often?
- Would I still want it if it were not on sale?

4. QUICK REMINDERS

- You do not have to use all seven shades if a smaller palette suits you better.
- Warm and cool shades can work together; choose combinations you enjoy wearing.
- Check each garment's care label before washing, bleaching, or drying it.
